What do I need to know for my appointment?

- Each visit will be about an hour long.
- If possible please, bring someone with you.
- Please bring your cane, walker or wheelchair with you if you need mobility assistance.
- Please bring your health card.
- Bring a list of all prescription medications.
- You can park at the outdoor parking lots on all four sides of the hospital. There is also one covered parking garage on the south-east corner of the property.
- Osler’s property is smoke-free.
- Osler is a scent-free environment. Please do not wear perfume, cologne or scented products while you are visiting.

Where is the Breast Rapid Diagnostic Program located?

At Brampton Civic Hospital, we are located on the 2nd floor of the south building.

1. Enter the hospital at the main entrance and take the Leaf Elevators to the 2nd floor.
2. Turn right off the elevator.
3. At the end of the hall, turn left and proceed to the Breast Imaging Department.

Where is the Breast Support Clinic located?

At Brampton Civic Hospital, the clinic is located on the 3rd floor of the south building.

1. Enter through the main entrance of the hospital.
2. Take the Leaf Elevators to the 3rd floor.
3. Please register in the Outpatient Registration Office located in front of the 3rd floor elevator.
4. At registration you will be given a chart to bring to the outpatient department.
What is the Breast Rapid Diagnostic Program?

The Breast Rapid Diagnostic Program is a multidisciplinary clinic that rapidly diagnoses breast conditions and supports patients. A dedicated health care team will work with you to manage and coordinate your care.

In the Breast Rapid Diagnostic Program, all referred patients will:

- Have their breast images reviewed by a radiologist as well as a team in the Diagnostic Imaging Unit.
- Have their follow up appointments coordinated by the Nurse Navigator to expedite your care in the Breast Support Clinic.

Changing your appointment

To change or cancel your appointment contact the booking office:

905-494-2120 ext. 58553

We encourage you to keep appointments as timely rebooking of patients is challenging due to high patient volume.

What does it mean if I need to be seen at the Breast Support Clinic?

- You will receive the results of your breast biopsy.
- You will meet with the health care team and arrange management of your breast condition.

How will my Nurse Navigator help me?

A Nurse Navigator is a specialized registered nurse who will help to coordinate and support your journey by:

- Providing you with information and educational materials custom to your needs.
- Providing one-on-one guidance and assistance to help you understand your appointments.
- Providing you with information on community resources and other health care professionals including dieticians, spiritual care, psychologists and social workers.

When will my biopsy results be available?

In general, it takes five to seven days from the date of your biopsy to the date you will meet with the physician at the Breast Support Clinic to receive your results.

We understand waiting for results can be difficult. The Nurse Navigator is happy to discuss any questions or concerns you might have prior to your appointment.

Please contact them at 905-494-2120 ext. 58460 with any questions or concerns.

Who will I meet at the Breast Support Clinic?

At your appointment you will meet with the healthcare team and the Nurse Navigator to discuss your biopsy result and proposed management plan.
